  - **Version Control:** Git, GitHub
- 

## PROJECTS

### Online Tiffin Service

Jan 2024 - march2024

- A online food delivery website created using Html, Css, Bootstrap, javascript and PHP modules containing user , admin,Mange Orders,payment gateway etc.
- Created an MySQL database architecture that improves content retrieval speed and enhance user experience.
- Utilized JavaScript to create interactive elements such as filters, product sorting, and real-time form validation.
- Utilized bootstrap to make it responsive .
- Integrated third-party APIs for payment processing to enhance functionality.

### Vestis(clothing brand)

Dec 2024 - Jan 2025

- Vestis is a fashion and lifestyle platform built to showcase creativity and design, developed with a focus on simplicity and learning core web development principles. The website was created using HTML, CSS, Bootstrap, PHP, and MySQL, providing a dynamic, yet straightforward solution for users to engage with fashion content.
- As the sole developer, I handled all aspects of the website, from layout design and styling to integrating PHP for basic functionality such as form submissions and dynamic page loading. This project reflects my ability to build websites from the ground up with minimal resources, while ensuring a smooth user experience
